## PASSION SPAS HISTORY

Passion Spas is a world leader in the building of high quality spas. With manufacturing and distribution centers in America and Europe, Passion Spas is at the forefront of world-class spa development and production. For nearly thirty years, Passion Spas has been engineering and manufacturing spas known for exceptional innovation and superior design.

We know that you expect quality and performance in your spa, but our experience tells us that you desire a spa that is reliable, easy to maintain, and inexpensive to operate. After all, you want your spa to enhance your lifestyle, not complicate it.

Passion Spas are sold through select dealers whose experience and commitment to quality and service matches our own. We listen to our customers, and the input we receive is used to further improve the quality and performance of our spas.

Passion Spa customers have come to appreciate the impressive simplicity of our spa offerings, since all possible options are included. Each of our four spa collections comes with an array of standard features designed to enhance your spa experience. You can be confident that your spa will provide years of affordable enjoyment for you and your family.

## PASSION SPAS PROFESSIONAL DESIGN

At Passion Spas, designing great spas is our specialty and our passion. We go to great lengths to ensure that every detail of the spa contributes to your comfort and creates the ultimate relaxation experience. The pleasing lines of the spa shell are both attractive and functional, providing strategic locations for lighting, jets, and features. Controls are within easy reach, seat contours and depths provide maximum comfort, and there are a variety of seating options in each spa for your enjoyment. Soft air massage, LED lighting, and aromatherapy are only some of the features we include to enhance your spa experience. Your Passion Spa is a work of art designed to deliver functional beauty to your home or backyard.

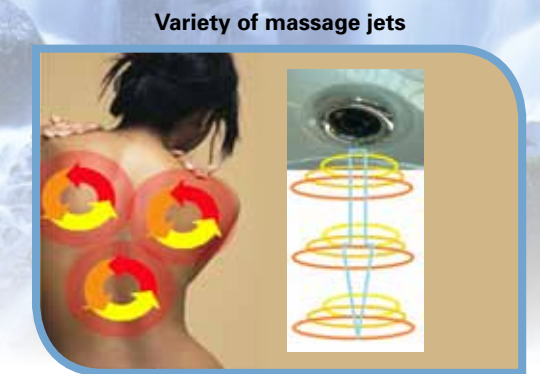

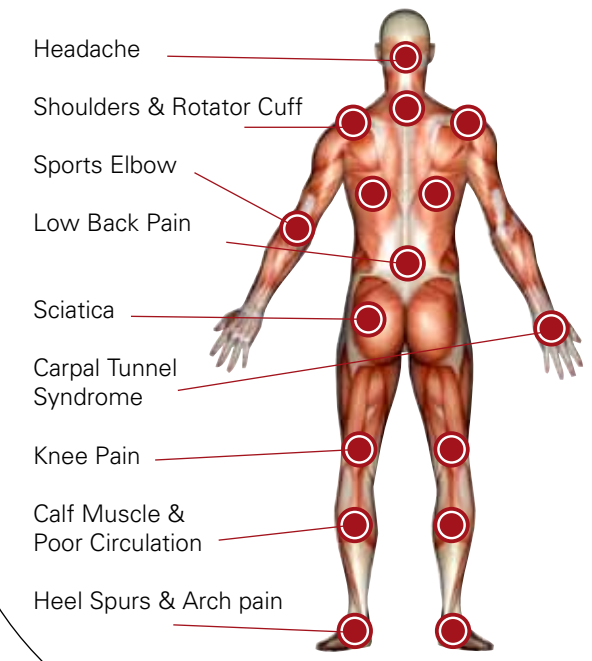

## PASSION SPAS PHYSICAL THERAPY

Passion Spas are complimented with an array of massage jets that allow you to create and control the type of massage therapy you desire. There are jets that pulsate, rotate, and provide direct pressure where you need it. Jets are adjustable and directional and are recessed into the spa shell for maximum comfort. Our exclusive Aqua Rolling Massage™ pushes water up the back of the seat through

specially designed recesses in the spa shell. The result is a vigorous massage that works the muscles throughout your back. Whether you simply want to relax or require relief from pain or stress, each Passion Spa has a variety of massage features that will create the ultimate in hydrotherapy relief for you.

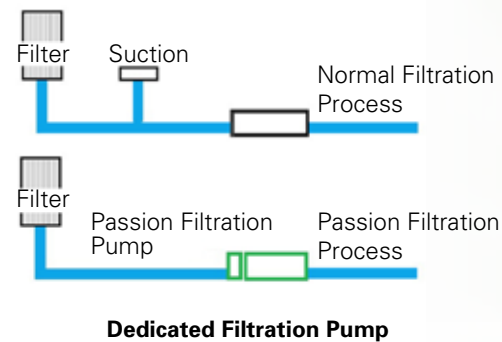

## PASSION SPAS PERFECT WATER

Passion Spas are equipped with a multi-faceted water purification system that helps keep your water crystal clear and reduces the need for additional water sanitation and maintenance. The sole purpose of our dedicated filtration pump is to draw water through the spa filter, insuring that your spa water is constantly being filtered regardless of whether the massage pumps are operating. The water is sanitized by means of our highly effective Ozone System and, in our Signature and Exclusive Collections, further purified with our UV sanitation system. The combination of 100% filtration, ozone sanitation and UV purification creates our Synergy Ultra Pure water purification system that creates the ultimate in clear water.

## PASSION SPAS PLANET FRIENDLY

While you are enjoying your Passion Spa, you are being a good steward of both your budget and the environment. Passion Spas are designed to reduce energy consumption through a variety of innovative features. Dual Source heating technology supplements the heat produced by the electric heater. Specially designed massage pumps agitate the water molecules through friction, which generates heat, thereby easing energy consumption by the heater. Our programmable controls allow you to set the times when your spa will turn on and off, and the low-wattage filtration pump uses only a small amount of electricity to keep your water sparkling clean. Triple layer insulation, extra thick walk-on safety cover and Everlast™ floor support shroud your Passion Spa with one of the most effective heat containment designs available.

## PASSION SPAS PRECISION ENGINEERING

Passion Spas are designed to perform and built to last. Quality components and precise manufacturing combine to create one of the most fully featured and innovative spas available. Our acrylic shell is reinforced with vinyl-ester resin laminates that are applied by hand. The shell is supported by a durable synthetic support structure that will ensure that you can enjoy your spa for years to come. The entire base of the spa is enclosed with our Everlast synthetic floor support, providing integral seat supports and structural integrity. Passion Spas deliver superior design, quality components, and experienced craftsmanship in a spa that will provide you and your family with years of enjoyment.

## PASSION SPAS PROTECTION FOR YOU

At Passion Spas, we build great spas and value long-term relationships. We want you happy with your spa today, tomorrow and in the future. Our experience in the spa business allows us to design and build great spas, using only the best components, and backing our spas with exceptional support to our dealers. To that end we select dealers who share our commitment to customer relationships. We then work with our dealers to provide the support they need before and after the sale. Enjoy your Passion Spa knowing that we will be here with the expertise, experience and dedication needed to support you in the years to come.
