Concept R

reddot design award
winner 2013

THE SAUNA HEATER WITH ROUNDED CORNERS

The sauna heater is the core part of any sauna system. This is why the Concept R has been created as a design product of the highest technical standard.

Thanks to its four visible sides, it is also possible to position the heater as a freestanding feature in the room.

Its interior workings are also unique: thanks to the applied 3-shell technology, the surface temperature of the external shell is considerably reduced. In conjunction with the optional wood railing, this heater offers maximum combustion and contact protection.

Innovative technology:

- Sauna heater output: 9 kW, 10.5 kW, 12 kW and 15 kW
- External components made from brushed and powder-coated stainless steel
- Internal components made from stainless steel
- Easy to service thanks to the removable connection box
- 3-shell technology
- Height-adjustable feet
- Optional:
 - Fully automated safety shutdown with controls
 - Wooden railing (red cedar and aspen)

Auxiliary evaporator R

THE PERFECT COMPLEMENT TO YOUR DESIGN SAUNA HEATER

The auxiliary evaporator R makes steam for your sauna, whether as a stand-alone device or as an expansion module in combination with the oven series Concept R.

The auxiliary evaporator R can be easily retrofitted in existing sauna cabins with infusion stoves.

A sophisticated product design using quality materials such as porcelain and stainless steel characterises the auxiliary evaporator R. Under the porcelain dish for fragrance oils and herbs is an evaporator power of 2.5 kW, ensuring an optimum feel-good climate in your spa cabin.

Innovative technology:

- Evaporator capacity: 2.5 kW
- Can be combined with Finnish sauna heaters
- Wall mounting and mounting on the sauna heater Concept R possible
- Exterior parts in brushed and powder-coated stainless steel
- Dishwasher-suitable ceramic covering shell
- Optional:
 - Fixed water supply
 - Expansion tank for extended sauna enjoyment
 - Railing bracket kit

Concept R combi

THE COMBI HEATER WITH ROUNDED CORNERS

The Concept R combi is the consistent and logical continuation of the Concept R sauna heater both in terms of design and functionality.

It is characterised by the use of the finest materials. Special features such as the porcelain basin for scent essences and herbs make this combi heater truly unique.

The concept R heaters provide not only a large volume of stones for the perfect infusion but also benefit from a short heat-up time.

Innovative technology:

- Sauna heater output: 9 kW and 10.5 kW
- Evaporator power rating: 2.5 kW
- External components in brushed and powder-coated stainless steel
- Internal components made from stainless steel
- Dishwasher-safe scent bowl
- Easy to service thanks to the removable connection box
- 3-shell technology
- Height-adjustable feet
- Optional:
 - Fully automated safety shutdown with controls
 - Fixed water connection
 - Wooden railing (red cedar and aspen)

IKI Monolith

DESIGN FROM FINLAND

Nordic design meets traditional Finnish craftsmanship, making it simply different from everything else.

dSign Vertti Kivi & Co is one of the leading design companies for interior furnishings and interiors in Scandinavia. With sauna heater IKI Monolith, brought about in collaboration with producer IKI-Kiuas LTD., the designers managed to combine a linear and timeless design with a somewhat raw appearance that is nevertheless absolutely functional and durable Finnish handcraft.

IKI Monolith not only stands out through design and craftsmanship from Finland but also guarantees you a special sauna experience.

Innovative technology:

- Sauna heater output: 6.9 kW, 9.0 kW, 13.8 kW, 15.9 kW and 18 kW
- Exterior parts in brushed stainless steel
- Inner parts made of stainless steel
- After infusion, steam is released in all directions – providing for long-lasting and even heat distribution
- By controlled addition of water in the lower or upper area of the stove, the steam burst can be mild or strong
- Easy loading with stones by opening of one of the side parts
- Optional: stainless steel panel

wave.com4 touch II

ALL-IN-ONE OPERATING ELEMENT

The wave.com4 touch II operating element features a pleasantly subtle and modern appearance. The flat design allows it to be mounted virtually flush (only projects 3 mm when installed). Behind the front panel, high-quality electronics ensure maximum energy efficiency.

With the high-end glass touch operating element, all sauna and infrared functions can be controlled conveniently and easily using intuitive menu navigation.

The Finnish sauna, soft sauna, infrared, coloured light and sound can be controlled as individual modules or in almost any combination of your choice – all-in-one!

Innovative technology:

- Operating element with glass touch surface
- Ultra-slim design
- Touch wheel technology for operation of all wave.com4 features
- Display with high contrast and extra strong backlighting
- USB stick connection on the glass front panel
- AUX In connection (3.5 mm jack) on the glass front panel
- Multilingual menu navigation

just sauna fin

HIGH-END SAUNA CONTROL FIN

Less is more – the just sauna fin sauna control is available in a subtle black or white design in line with this motto. The minimal front panel design focus on intuitive control of the most important values for a sauna session:

The temperature level can be read from the LED control circuit at a glance. The light and fan can also be controlled separately. The flat design allows it to be mounted virtually flush while the high-quality electronics behind the front panel ensure maximum energy efficiency.

Innovative technology:

- Ultra-slim design (projects 3 mm when installed)
- High-end design and extremely simple operation
- High-quality long life components
- Energy-efficient electronics
- Remote start via potential-free contact
- Additional output (e.g. for infrared) dimmable to 500 W or switchable to max. 3.5 kW
- Cabin light and fan up to 100 W optionally dimmable or switchable
- Extension of output possible

just sauna combi

HIGH-END SAUNA CONTROL COMBI

The just sauna combi sauna control offers easy operation and high-end design.

In addition to the just sauna fin, the just sauna combi offers an evaporator capacity of 3.5 kW. The air humidity is clearly depicted via an additional LED circuit.

Innovative technology:

- Evaporator power rating: 3.5 kW
- Ultra-slim design (projects 3 mm when installed)
- High-end design and simple operation
- High-quality long life components
- Energy-efficient electronics
- Remote start via potential-free contact
- Additional output (e.g. for infrared) dimmable to 500 W or switchable to max. 3.5 kW
- Cabin light and fan up to 100 W optionally dimmable or switchable
- Extension of output possible
- Humidity display

Thermo-hygrometer

TEMPERATURE AND HUMIDITY MEASUREMENT WITH STYLE

The thermometer-hygrometer of the 110° line combines good and thoughtful design with precise measurement of the sauna climate. In this way you can always keep an eye on your sauna climate.

Thermo-hygrometer round

Stainless steel frame,
black printing
160 mm Ø

Thermo-hygrometer round

white printing
160 mm Ø

Caution: temperature range 30 - 120 °C, relative humidity 0 - 60 %

Sauna aroma concentrate

FROM ORGANIC CULTIVATION

For the sauna aromas of the exclusive 110° line, we use only natural and high-quality essential oils from fruits and plants from organic cultivation.

Blood orange

A fruity and fresh aroma,
improves concentration,
stimulating, harmonising
200 ml

Peppermint

Exudes a cool atmosphere,
inhibits anxiety in the room,
enhances well-being
200 ml

Lemon lime

Clear, fresh aroma with invigorating, energising effect,
improves concentration
200 ml

Lemon grass Peppermint

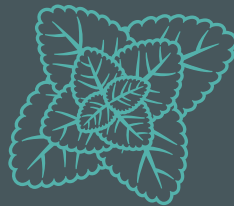

Fresh, citrusy aroma, cooling peppermint atmosphere,
drives away fatigue
200 ml

Aroma concentrate

General

NATURAL AROMA CONCENTRATE

Menthol liquid is extracted from natural peppermint. As an additive for steam bath and sauna aromas, menthol refreshes the body and spirit.

**Liquid menthol**

Add some splashes to the sauna aroma concentrate, aromatic steam bath emulsions or infusions
200 ml

Clarification of icons

Describes the max. heating power rating of the connected sauna heaters

Describes the max. evaporator power rating

The control can be extended with additional modules (e.g. humidity module)

Control with ventilator connection

Control with music function

The control is suitable for colour light operation

The control is available in different housing variants

The control offers a timer function which enables the pre-set time to be programmed, for example

Control with remote activation

Specifies the operating voltage for sauna heaters

Specifies the stone capacity of the heater

Specifies the size of the sauna cabin for which the control or heater is designed

Freestanding heater

Wall-mounted heater

Warranty conditions

sentiotec is convinced of the quality of its products, and we want you to benefit from them!

We provide a five-year warranty on all of our controllers of the 110° line in private use. For commercial installations, the warranty is two years. For all sauna heaters, the manufacturer's warranty is two years.
